### ***Election/Restrictions***

1. Claims 46-50 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected process for selectively removing alkynes or diolefins from a feedstock also containing olefins, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on October 14, 2004.

### ***Withdrawn Rejections***

The 112(2) rejection of claims 13, 16, 18-21, 25-27, 30-39, 44, and 45 stated in the previous Office Action has been withdrawn in view of Applicants' amendment to claim 13.

The following rejections of record have been withdrawn in view of Applicants' persuasive arguments:

(1) The 103(a) rejection of claims 13, 16, 18-21, 25-27, 30-39, and 44 as being unpatentable over Uzio et al. (USP 6,498,280), and

(2) The 103(a) rejection of claims 13, 16, 18-21, 25-27, 30-39, and 44 as being unpatentable over Shepherd et al. (USP 6,503,866).

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Rick James on January 4, 2007.

*The application has been amended as follows:*

*a. Please cancel non-elected claims 46-50.*

### ***Allowable Subject Matter***

3. Claims 13, 16, 18-21, 25-27, 30-39, 44, and 45 are allowed.

### ***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:.

The prior art of record does not teach or suggest the claimed catalyst composition consisting of a support, a rhodium component, an indium component, and optionally a third metal component (selected from iron, cobalt, and ruthenium), wherein the first, second, and third components (if the third component is present) are predominantly contained in an outer surface layer of the support having a depth of not more than 300 microns.

Applicants' claims are limited to the recited elements.

Both Uzio et al. and Shepherd et al. teach additional components that are excluded by Applicants' claims in their present form.

For these reasons, in addition to Applicants' arguments, Applicants' claims are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
